

## Changing the way ahead!

- Why we are here?
- Where are we coming from?
- Where are we going?
- Do we have consensus?
- What is my/your role in changing the way ahead for palliative care?

## Why are we here?

- Dialogue
- Learn
- Teach
- **Address the needs of our patients**
- 

## Where are we coming from?

- What is going in our countries?
- Challenges/lessons
- What can we do better?
- What would we want to do- but we don't know how?
- Who else needs to be here?

## Where are we going?

- Do our patients have what they need where they need it?

## Consensus

- We need to do more/better to address availability of pain medication across Africa

## Workshop Objectives

- To improve participants knowledge about policies, tools, and the infrastructure necessary to make opioids available in their own countries
- to support participants in evaluating their national policies and laws on opioid availability.
- Support Participants develop action plans and national advocacy strategies.

**Thank you**

**African Palliative Care Association**
